Who We Are

Gama Sonic® is the world leader in upscale, high quality solar lighting for homes, businesses and outdoor spaces. We develop, manufacture and market residential and commercial/industrial grade, energy-efficient outdoor solar powered lighting products. Since 2001, our multiple patented technologies have introduced innovative and cost-effective outdoor solar lighting solutions that provide unsurpassed levels of illumination and reliability. Gama Sonic® distributes products around the globe.

OUR MISSION

Our singular mission is to provide a solar solution for replacing traditional gas and electrical fixtures with an equivalent look, quality, duration and brightness. Gama Sonic® Solar lights can be easily installed anywhere outdoors without any electrical wiring, trenching or digging, and most importantly, without compromising performances of traditional lighting.

Our Story

Why Breakthrough Technology Matters

Over Twenty (20) Design and Utility Patents

No matter what outdoor lighting challenges you face, choosing a technology-rich solution makes all the difference. Solar-powered products have been around for years, but it took the research and development expertise of Gama Sonic® engineers to create rechargeable solar lighting designs that outshine and outlast every major competitor. We stay ahead of the design curve by creating and testing products that fit a wide variety of residential and commercial applications.

What this means to you: Enjoying a safer, more reliable, and more cost-effective investment for your lighting budget.

 LED Technology	 Easy Installation	 No Wiring
 Weather Resistant	 Maintenance Free	 Cost Efficient
 Eco Friendly	 2 Year Warranty (Residential Products)	 5 Year Warranty (Commercial Products)

GS Cone Technology is a patented technology which allows our solar lamps to disburse more light efficiently and spreading the directional LED rays down and around the light fixture.

Patent #7172307

Morph Solar Panel Technology is our ground-breaking process of capturing more power from the sun. Monocrystalline solar cells are molded to the surface of the lamp, “morphing” the lamp into a solar panel.

Translucent Solar Panel (TSP) is an industry changing technology that transforms the largest surface areas of the light fixture into solar panels - the glass panes. This innovative technology embeds the solar cells into the glass, maximizing the power from the sun.

Automatic Tracking System (ATS) technology is revolutionizing the way to maximize the sun’s rays in charging solar lights. This technology, previously used in large solar farms, is now available to the consumer to track the sun throughout the day and provides a longer lasting and brighter light.

GS Solar LED Light Bulb is a patented technology that replicates the conventional look and feel of the traditional bulb in outdoor solar-powered lamps.

Patent #9458970

LuminCore Technology is our latest technology, meticulously engineered to illuminate your space with precision. Featuring strategically placed 24 LEDs in a pyramid formation, this innovative design ensures consistent illumination from all directions, mimicking the light distribution of a standard bulb while offering a sleeker, modern aesthetic.

Commercial Series by **GAMA SONIC®**

Since 2013, Gama Sonic's Commercial Series line has been installed in parks, communities and cities across North America, bringing a real maintenance-free, eco-friendly, and cost-effective alternative to traditional pedestrian lighting.

Our Partners:

The Centennial Solar Light is a commercial grade, high-performance solar lamp providing a stunning 1000 lumens of bright white (6000K) light for up to 8 nights. This solar lamp’s weather resistant, coastal approved construction is perfect for commercial and residential areas such as pedestrian walkways, parking lots, and community parks. The Centennial Solar Light is the practical solution for any outdoor lighting application.

Centennial Commercial Solar LED Post Light

- Commercial grade construction
- Coastal approved
- IP65 - weather resistant rating
- 64 SMD LEDs
- Corrosion resistant powder-coated cast aluminum
- 22W tempered glass SunPower™ solar panel
- Exterior low/off/high switch
- Automatic dusk to dawn operation
- Patent #7172307

The unique, contemporary style of the Modern Commercial Grade Solar Post Light makes it perfect for any outdoor space, especially parks, commercial grounds, and residential communities. It fits standard 3" posts and is an excellent choice for replacing and retrofitting outdated gas or traditional electric lights. The light turns on automatically from dusk until dawn and, for added versatility, allows you to choose between a high or low output at the flip of a switch.

Modern Commercial Solar LED Post Light

- Commercial grade construction
- Coastal approved
- IP65 - weather resistant rating
- 24 SMD LEDs
- Corrosion resistant powder coated cast aluminum
- Powered by efficient monocrystalline solar panel
- Exterior low/off/high switch
- Automatic dusk to dawn operation
- 140° Detection zone
- 2 modes of operation: PIR / Constant On
- 20W tempered glass solar panel
- Timer feature allows 4-8 hours of duration or dusk to dawn operation

Introducing Gama Sonic's Contemporary Square Solar Lamp Post Commercial Edition, specially designed for bus stop sign lighting, featuring a special dynamic 25/50/25 brightness schedule and versatile mounting bracket design to fit common U-Channel and Square sign posts. Lamps can also be used in other urban, commercial or industrial areas where practical and cost-effective lighting is needed.

Contemporary Square Solar Post Light - Commercial Edition

- Powered by efficient monocrystalline solar panels
- Automatic Dusk to Dawn operation, featuring a special dynamic 25/50/25 brightness schedule: Automatically adjusts brightness levels throughout the night—starting at full brightness for the first 25%, transitioning to low brightness for the middle 50%, and returning to full brightness for the final 25% of the night—while adapting seamlessly to seasonal changes
- Corrosion resistant powder coated cast aluminum
- 3 color temperature options: Warm White (3000K) / Natural White (4000K) / Bright White (5000K)
- 14W tempered glass solar panel
- 2 mounting options: center mount and side mount, versatile mounting bracket design to fit most common U-Channel and Square sign posts.

The Imperial III Solar Light is a commercial grade solar lamp featuring both a warm-white (2700K) and bright white (6000K) light temperature, provided at a brilliant 300/600/900 lumens and for up to 6 nights (300 lumen per lamp). Continuing the Imperial series reputation for durability, functionality and style, its weather resistant construction is perfect for commercial and residential areas such as pedestrian walkways, parking lots, and community parks.

Imperial III Commercial Solar Post Light

- Commercial grade construction
- 21 SMD LEDs
- Dual color - bright white/warm white
- Automatic dusk to dawn operation
- Powered by efficient monocrystalline solar panels
- Powder coated cast-aluminum weather resistant structure
- Beveled glass panes

Introducing Gama Sonic's Contemporary Square Solar Lamp Post with Built in Timer and accompanying 8ft modern square pole, designed to transform outdoor spaces with its radiant 500 lumen output. Perfect for parks, playgrounds, and shopping lots, this solar post light has a versatile illumination that enhances safety and ambiance alike. With three color temperature settings to suit any environment, paired with its sleek, modern design, this contemporary combination seamlessly blends functionality with style, illuminating your outdoor space with both efficiency and elegance.

Contemporary Square Solar Post Light w/ Timer

- Powered by efficient monocrystalline solar panels
- Automatic dusk to dawn operation
- Corrosion resistant powder coated cast aluminum
- 3 color temperature options: Warm White (3000K) / Natural White (4000K) / Bright White (5000K)
- 14W tempered glass solar panel
- 2 mounting options: center mount and side mount
- Timer feature allows 4-8 hours of duration or dusk to dawn operation

Accessories

Batteries

Gama Sonic® uses the highest quality batteries and technology to power our solar lights. Our batteries are strategically matched with a solar lamp to maximize its duration and brightness. As technology continues to be increasingly important in the growing solar lighting world, we set the industry standard on quality battery solutions. We only use specially designed products that are packed, sealed, and use an external harness to eliminate corrosion and provide the superior charging and powering of the light our customers expect.

EZ-Anchor Solar Lamp Post Anchor Kit

* 30001
EZ-Anchor Lamp Post Base

**Not applicable on commercial posts*

STEP 1

Install the EZ Anchor

STEP 2

Secure the lamp post base to the EZ Anchor

STEP 3

You're done! Let the sun do the rest.

NOTE: 30001 EZ-Anchor Lamp Post Base is built to support ONLY single lamps on a Gama Sonic® Decorative or Imperial Post. DO NOT USE to support multi-lamp products.
